its beginnings

Creation and organization . . . Interviews with printers . . . R. Rose and pointed questions on prices . . . Letter press or offset . . . Clark Printing House because of best quotation and it's close . . . Long summer of sleepless nights . . . Borchert and Glennan doing makeup in a hot attic . . . "You can't have organization without people, but who?" . . . hot evenings in a dingy basement doing makeup . . . Adcock says this page has movement . . . you just can't do anything with the senior section . . . I like this . . . Well, the makeup is finished all we have to do is fill the blank pages . . . Nancy Steen calling faculty . . . Faculty missed appointments for pictures . . . Seniors finally get their writeups in three weeks late . . . "Hello Miss Eaker, how's the senior section coming?" . . . How's the advertising . . . Please approve our constitution . . . We're going to meet those deadlines if we have to stay up all night . . . Board Meetings in Parrish twenty, no smoking, nuts! . . . Baker how would you like to do a little writing—fifty pages . . . time goes so fast we're never going to make it . . . "Higashi where are you?" . . . no time for studies . . .

The essence of Swarthmore

Only half of the organization flunked out between semesters . . . where are those sports pictures? . . . I don't care if the season hasn't started, get that copy in . . . Ellie Logan and ulcers . . . Jack, sell that book . . . Collins dreams of book bill slips . . . Tarlin the miser keeps a tight rein on the money, what money . . . sell ads . . . Even a tight dress doesn't sell ads in a recession . . . Hurrah, we're a legal democratically organized organization . . . We only have to sell 900 books to meet costs . . . Bancroft and appendicitis . . . Halcyon photogs take up residence in the dark room . . . How can I get a picture of the Chess Club when I don't even know whether or not it exists . . . Proof reading . . . taking pictures . . . writing copy . . . organized chaos . . . more sleepless nights . . . when we get everything in I can relax, ha! ha! . . . who wants to be the editor next year . . . Oh! forgot the cover design . . . library display and letters to parents will sell more books . . . 'Pinkie' Anderson jack-of-all trades, master-of-all trades . . . That last deadline . . .

and staff

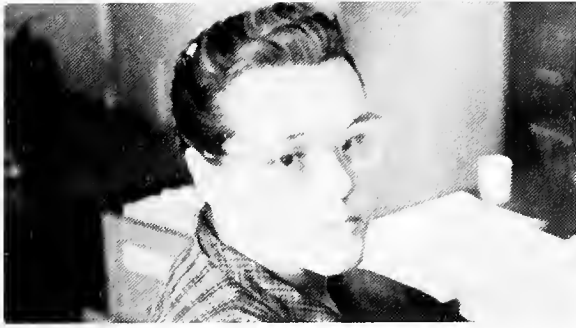

To grow both socially and academically, this is our goal at Swarthmore but before the introduction to new ideas, before the first effort to formulate our own thoughts, before the beginning of the search for our own identities . . . we must be first housed, fed, and supplied with the tools for our own learning . . . these, our basic needs, are filled not by the academic staff of the college, nor by the administration . . . these basic requirements are met by the night watchman, the house director, the nurses, the dietitian, who form the backbone of the school which enables us to go on to the accomplishment of our academic and social potentials

Our basic need of money . . . the steel gray cage of the business office keeping our money safe for and from us . . . giving out, from its backlog of green, slippery-new dollars, the money which is soon spent for cleaning, toothpaste, and that all-important, always out of proportion, miscellaneous . . . the land office business at the end of the money when allowances have run out . . . the sense of accomplishment at having money equal expenses for once, followed by a disastrous, self-congratulatory splurge which again unbalances the budget

The cleanness and antiseptic smells floating out from the infirmary . . . their dry sterility contrasting with the warm friendliness of the people there

. . . the waiting lines at the hours when the doctor is there, people coming half for medication, half to escape, for a time, their studying . . . the struggle of the staff to keep their students healthy when these last "forget" to gargle, to take pills, or to get some sleep . . . already sparkling glass and chrome being polished by the careful hands of a gentle, quiet nurse . . . modern drugs and peaceful calm to heal the physical wounds and the loneliness of tired Swarthmoreans.

The varied scenes in the dining room . . . the long hissing line at 11:53 a.m.; the shocked faces, seeing, for the first time, the Beet Haverford sign put up by the class of '61; trays overloaded with packages of cereal, revealing those of us who want to sleep late for the rest of that week's mornings . . . heated arguments over cold food . . . not only meals, but companionship and conversation . . . a chance to meet those different cultures that we came to Swarthmore to know and appreciate.

Chief warrior against Scotch tape, thumbtacks, and pins in the walls . . . the house director's office—center of repairs (requests for); rats (complaints about); and roommates (disagreeing, who'd like to move) . . . vain hopes that the rooms could, just for once, be painted in colors that everybody would like . . . keeper of keys, protector of paint and paper, and watchdog of the furniture and the floors.

The brightly lit windows of the library standing out against the dark, deserted campus . . . source of the tools for our learning . . . background of friendship for study . . . an initiative for work in its quiet and peaceful depths . . . an initiative for peace in its collection dealing with that cause . . . a reminder of the short time we will be here, as we look longingly at all the books we'll never have time to read

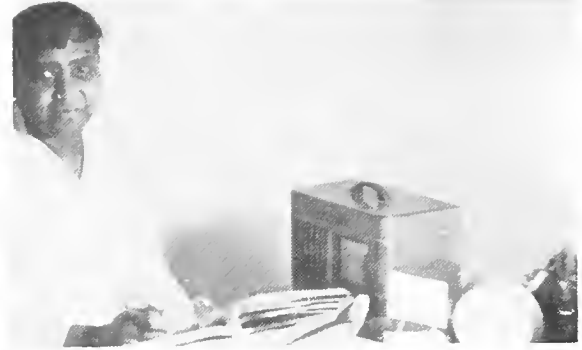

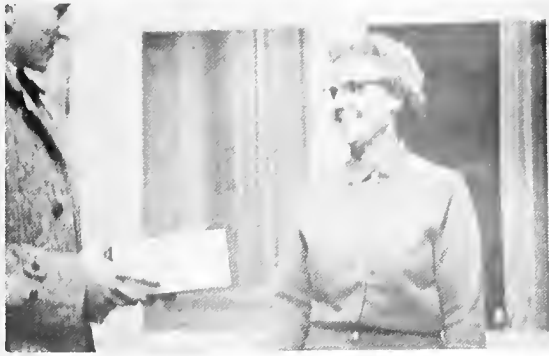

The deans: sources of guidance, sympathy, and understanding . . . efficiency shown in their knowing the names, classes, and some details about, most, if not all, Swarthmoreans . . . in their offices: scared freshmen called in for interviews, the circles under their eyes growing bigger and bigger as they anticipate the questions—how much sleep are you getting?, how are you coming in your classes?, and, just what grades did you get on your hour exams?; the superior upperclassmen figuring up impressive tables of mileages and time schedules to try and get home that one day early at Christmas or Thanksgiving or spring vacation; prospective freshmen sitting on the slippery leather chairs, bolstered by their parents, wishing that this college wouldn't require personal interviews for admittance . . . from the office—all sorts of curious bulletins to be posted in the glass case, those frightening cards requesting your appearance at an interview whose significance is still unknown to you . . . the deans themselves—subjected to much criticism; snubbed by the freshmen in their fear of recognition and consequent retribution for the Freshman Serenade; in a turmoil over the choosing of THE route, either blue, green, or yellow . . . responsible more than anyone but ourselves here for seeing that we are secure and happy at Swarthmore, the college where they helped to bring us.

President Courtney C. Smith . . . Intellectualism with a Madison Avenue approach . . . gray flannel suit and a pipe . . . Collection selection ranging from Plato to Robert Benchley . . . "Every year about this time . . ." C<sup>2</sup> . . . host at tea . . . coeducational infirmary? . . . the four point plan failed, so collegialism through admissions policy . . . Vice-president Shane . . . a pipe in Commons . . . anecdotes of George School and Swarthmore in days past . . . a home with bronze cupolas . . . friendly smile for all . . . equally ready to discuss sports, liberal education or independent schools . . . Vice-president Cratsley . . . blue chip financial policy . . . little known to many of us, but familiar to Ec. 3 students . . . These men are responsible for the air of quiet activity which pervades Second West long hall . . .

Who are the friends of the students? . . . People we see often, who make the daily life run a little smoother . . . Often, we don't know their last names . . . Mildred, trying to catch the eye of the boy at the dining room door . . . harried at times . . . Agnes, what's the matter with the Phillies? . . . That sign is **not** authorized! . . . Mr. Renshaw . . . keys, tools and flashlights are the badges of his office . . . assistant director of the Hamburg Show . . . Mr. Wood . . . Mrs. Scott's gardener . . . Mrs. Von Frankenburg . . . mainstay of the library . . . white hair and purple dresses.

"Physical education is required of all freshmen and sophomores during this two year period, men students must attend a minimum of three classes a week" . . . thus the college catalog describes those hours affectionately known as "PF" . . . in the fall, it's soccer or football and tennis, badminton, or golf and always calisthenics . . . something new this year, physical fitness tests . . . pull-ups, sit-ups, squat jumps (puff!), push-ups . . . exhausted? . . . Okay, see how fast you can run the half-mile . . . then three days in bed with all sorts of aches and pains . . . then winter, with basketball or volleyball, and boxing or wrestling . . . calisthenics included, of course . . . finally, spring and softball . . . what? fitness tests again? Oh no! . . . in bed, and plenty of Ben-Gay . . . show any improvement? . . . oh! to be a junior, one of those perfect physical specimens . . . three sessions a week . . . blue shorts and white shirt—tucked in . . . "you mean I can't just graduate because of my brains: I have to swim too?" . . . Heve: avid member of every class . . . "take folk dancing; you don't have to change" . . . red flag for rainy days . . . "Dinny said that my posture grade indicates that I am just the sort of person they want in a class called body mechanics" . . . "change sides and play another game" . . . "but this is only my second cut this week."

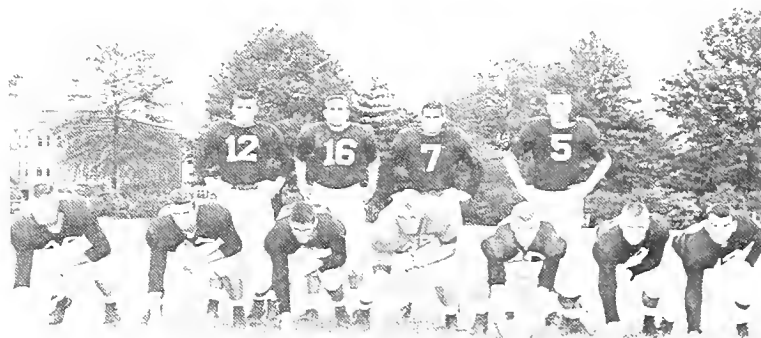

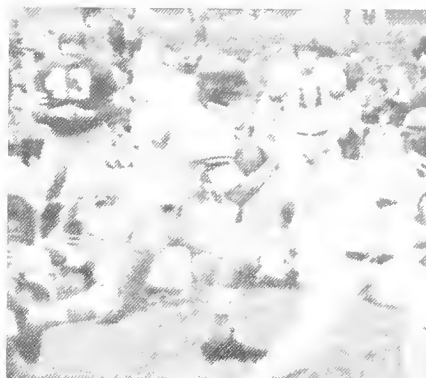

Kwink, Society of Managers . . . members are elected from Senior Associate and Assistant Managers, plus exceptional candidates . . . "I've managed to get in, now to manage not to work" . . . "We need volunteers, who isn't here?" . . . benevolent paternalism . . . organization excels at deficit financing . . . "Why do we lose money on everything?" . . . "Must it rain every Homecoming and Haverford game?" . . . "Just what type of a club are we?" . . . anything and everything . . . "Get your programs; keep your seat dry" . . . discussion on a Kwink sponsored Frisbee Tournament . . . dinners and parties par excellence, culminated with the Male Athletic Dinner and Athlete of the Senior Class award . . . President Bob McDiarmid turned rock 'n' roll singer . . . Kwink Old Shoe Trophy, awarded for Homecoming Decorations, presented to DU despite power failure on lower campus . . . "I thought the CA was supposed to be through by 7:00" . . . primary aim of club—more initiations with banquets every year . . . most lethargic membership

The key bearers who never explain what lies behind the five mysterious letters . . . fortuitously a pronounceable combination . . . association of those who manage the women's varsity team sports without active participation . . . boon to hungry crowds at football and basketball games . . . six a.m. initiations in the solemn spot of Gwimp Grove . . . "but the freshmen should **want** to make the senior bouquets" . . . girls who inspire men's passes?

Football '57 . . . two game winning spree over Dickinson (14-12) and Susquehanna (18-0) . . . the former featured the toe of Willie Stauffer, hard rushing by Zip Zimmerman, great all-around play by wingback Nate Price, Braniff's touchdown pass to Robby . . . the latter proved a field day for Blaine backed by fine team play which capitalized on breaks . . . Homecoming . . . Swarthmore's high-flying Garnet drops a 21-6 decision to a strong Hamilton squad . . . Aided by Asian flu Ursinus cancels its traditional outing with the men of the Crum . . . the Garnet surprised the cocky Cardinals of Wesleyan . . . lost a wet 14-13 decision . . . Memory has moments to be forgotten . . . the 1957 Johns Hopkins game is one of them . . . score: 40-20 . . . whose favor? . . . well, the Bluejays of Baltimore . . . Comeback Department . . . Swarthmore football team with freshman back Paul Meisel changed from goats to heroes in the PMC game . . . brilliant 14-8 victory . . . with the aid of a brilliant wallpaper job by the cheerleaders . . . Season's Climax Department . . . Hood Trophy point for Haverford with an 18-7 score . . . setting: snow . . . bright spots . . . the rushing of Cy Cardillo and Nate Price (who produced the lone Garnet tally) . . . Goodbyes . . . co-captains Blaine and Zip . . . Blaine—the leading scorer and passer . . . Zip—the mainstay of a solid line . . . Pete Durkson—a competent job at tackle . . . Pete Atkinson contributed to the Garnet effort . . .

Cheerleaders—"Give me an 'S'" . . . through rain, sleet, and snow in four sweaters . . . decorated locker rooms . . . "What did you say?" . . . producers for enthusiasm . . . spaghetti dinners . . . Iron 'Em Out!

September . . . old faces and new . . . double workouts for double soreness . . . new shoes and blistered feet . . . "But I've been a goalie all my life" . . . Dunny, Armen, and those plays, plays, plays . . . "Tape feels fine, Tave, but I can't move my legs" . . . October . . . game uniforms and returning alums . . . "But they were supposed to be old" . . . weather colder and team warmer . . . Penn and our first league win . . . strangers no longer . . . body building training meals and the ever-late athletes . . . "No, no, you can't have milk!" . . . tiger wound in the Garden State . . . exams, practice, labs, games, papers, exams, practice . . . the victory parade . . . Hopkins and the Flu, or rather Wu . . . asymptotic approach of full potential . . . Ursinus pays a four goal Price . . . Dunny, the voice of the turtle . . . Turkeys gobble Lafayette and F & M . . . half time: oranges and inspiration . . . November . . . Lehigh and another win . . . standard time and nightfall at four . . . scrimmage by candle light . . . poised for the stretch drive, the final Sergei . . . Annapolis and 98 scoreless minutes . . . beat Haverford . . . winter wonderland with visibility zero . . . fans chilly, game and trophy point on ice . . . on to New Brunswick . . . Swarthmore 4-Rutgers 0 . . . Congratulations Champs! . . . Didn't "win 'em all", but a good season—at least in aspirations . . . Captain Nancy Cummings . . . new coach . . . Pete did you say? . . . DST gone, practices under the moon and stars . . . Bryn Mawr was the game—double victory and poison ivy . . .

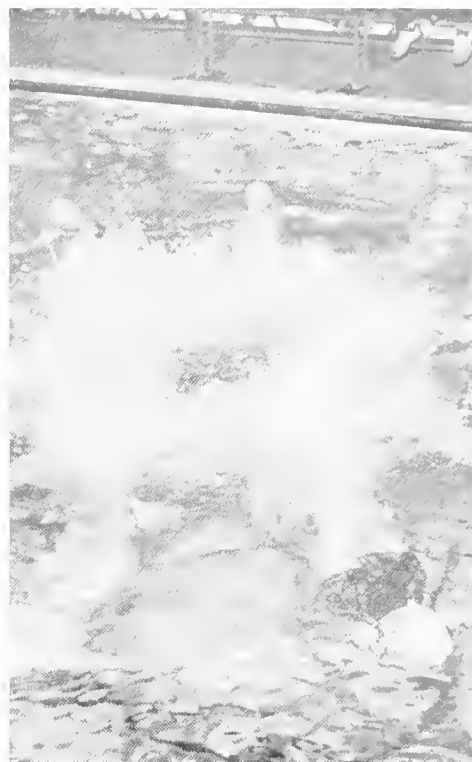

Two undefeated seasons in a row . . . a string of fifteen dual meets unbeaten . . . fourth place in the annual M.A.S.C.A.C. competition . . . honors students again for co-captains . . . Eddie Skeath, Swarthmore's only Olympic quarter-miler . . . Ed Wolf down from the higher reaches to run two very fine seasons . . . five Swarthmore men break the course record at P.M.C . . . sophomore Dave Denhardt—Swarthmore's best record breaker . . . undefeated by an opponent in dual competition . . . Mr. Miller—the explanation for continued interest and real team spirit . . . never worried

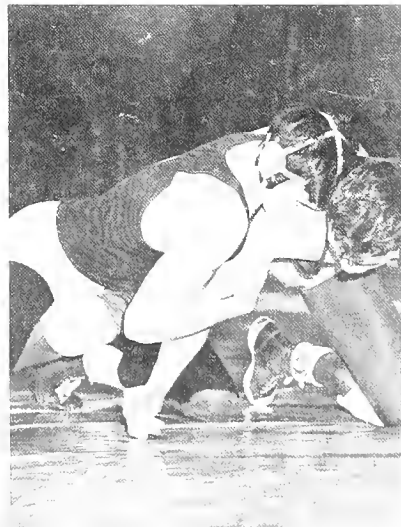

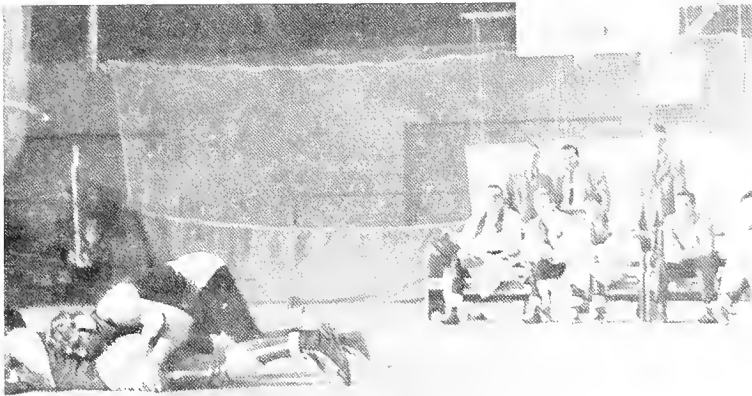

"Think of the glory of running four and one half miles" . . . and the **Phoenix** coverage . . . and the fans . . . "but she won't come down to meets when there's a football game, it's too noisy to study" . . . three practices a week and one of them a meet . . . the sad story of the man who gorged himself on two pieces of toast and a whole slab of butter . . . hot stuff, taped shoes and last minute apprehensions

"It's 99% psychological" . . . "You don't get cramps if you stand on your head" . . . Hopkins, the course that it takes a college education to learn . . . where's Tiger? . . . Haverford, those red guys . . . first five places and a Hood Trophy point for the Garnet . . . everybody goes to bed on W.S.G.A . . . "Don't worry, the other team always has the first four places for the first quarter mile" . . . Norm's crew dragging in the stakes for the last time . . . Carol's cooking at the banquet . . . it's over but for a small gold shoe in the bottom of a jewelry box

Three ring circus . . . Ringmasters Mary and Janet . . . wild animals, hula dancers, ponies, acrobats . . . and an announcer with a gold whistle . . . added attraction: a story of lovely "girls", a sea monster, and rescuing police . . . no! no! that's the wrong record! . . . fireworks finale: captains afraid that lights won't work; swimmers afraid they'll be electrocuted . . . is she drowning? . . . back dolphins, walkovers, flamingos, ballet legs . . . smile now, and don't spit . . . the parasols **should** float.

Middle weight romped Jansson . . . animal grunts and grumbles . . . Co-captain Kenny Mehan hopping behind the bench, though he always wins . . . Gomer sometimes goes to conferences . . . returns to a pleasant surprise . . . Wally Clausen and Walt Strong work cautiously on the bottom . . . "Jabbering" Harmon . . . There are many uncertainties—"Will we win by pins?" . . . "But we'll never get pinned" . . . Gomer Davies—"I can take anyone—in practice!" . . . Teller—who'll never say die . . . between Hawley and Mehan, and Stevenson and Strong, are the middle weights—the land unknown . . . practice, the varying invariable—"Sit out, switch, we're going ninety minutes today, fellows" . . . Klingener, the big mat mover . . . "If we don't beat Haverford **this** year, there will be fireworks!" . . . better training meals . . . more spectators . . . wrestling is a big sport around Swarthmore? . . . Ursinus, P.M.C., Delaware, and around the circuit . . . always another match on the agenda . . . team spirit that tough competition can't stifle . . . not lambs to the slaughter, but wolves thrown to wolves . . . before the match, the inevitable pep talk . . . "Don't clutch on the bottom" . . . the sweat-it-off boys . . . for three out of four wrestlers, the match is preceded by study hour . . . the starving wolves . . . the glory road . . . oranges and ice cream, compensation and reward.

Badminton—Ed Faulkner: patience and wit . . . innovation of the ladder-free enterprise on a small scale . . . Pete: Introduction to Swarthmore Racket Sports . . . winner of 'Bancroft' . . . able and crippled birds . . . practice or lab . . . a **training** meal for badminton . . . lightning smashes, skillful drops, soaring serves.

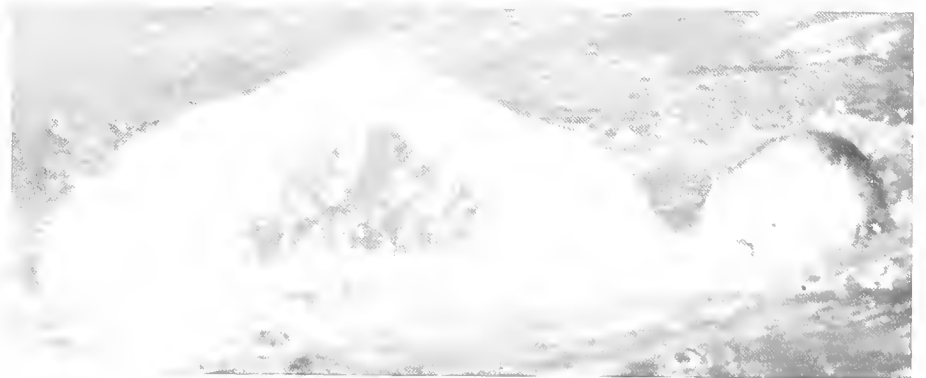

Volleyball—The Swarthmore Position: a strange weight distribution . . . tunics . . . faculty's latest project: the guided missile . . . "beautiful set up—**lousy** spike" . . . Kappa Sig vs. Women's team—masculine superiority vs. feminine wiles . . . spur to team work: the humor of the coach . . . when will we play a game?

spectators wilting in the steamy heat—an integral part of the meet . . . recoil at the start, craned necks and arched backs at the finish . . . waves lapping dangerously at unprotected feet . . . "Steady on the start boys" . . . no gun—swimmers taming new butterflies . . . the warmth of activity . . . sharp prickles of pain deadened by fatigue . . . "The meet was won by Swarthmore" . . . it was worth it

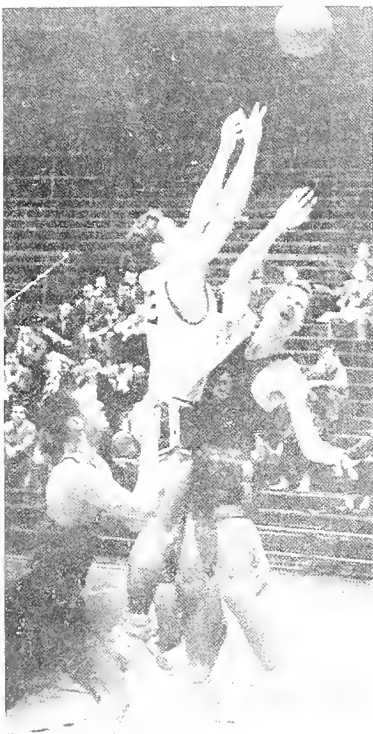

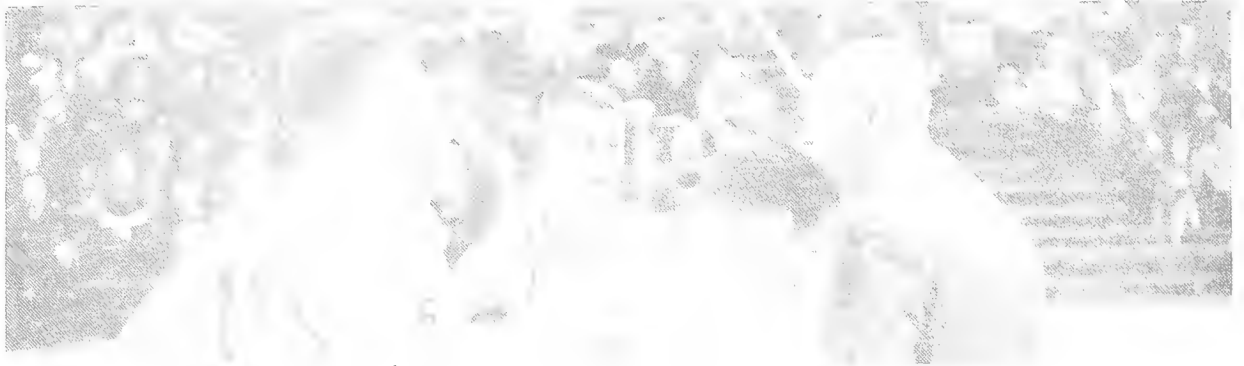

Women's swimming—fewer swimmers getting more and more versatile . . . "but of course you have a second stroke!"

3:30 to 4:30: sprints and laps, kicking and pulling, starts and turns . . . speed the starts and cancel the 'crow-hops' . . . more records to be broken . . . somehow always enough training meals and cars for away meets, due to the efforts of a busy manager . . . coaching inspired and inspiring: Dinny . . . another winning season?

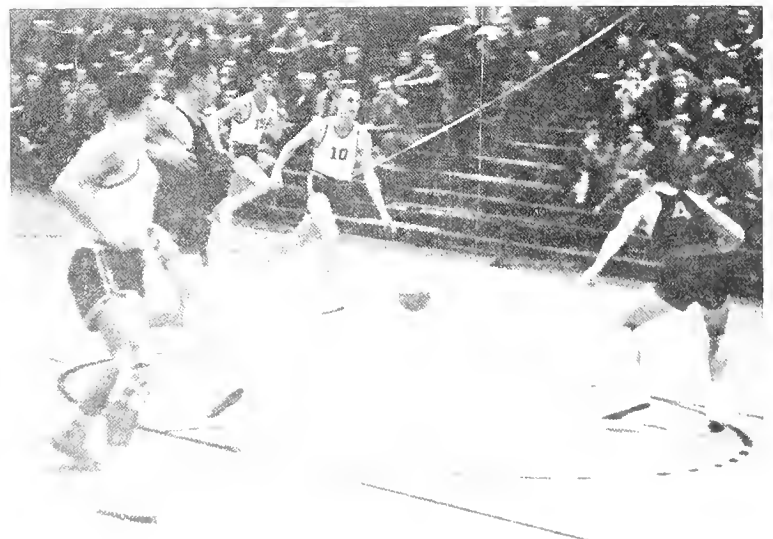

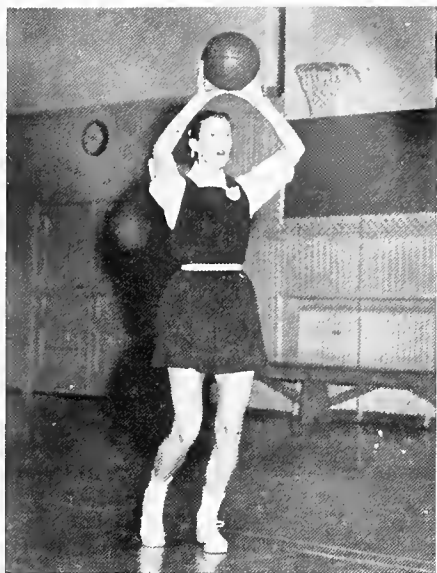

What! Miller late for training meal again? . . . "Are we all here now, twelve players and five managers?" . . . "If Dickinson doesn't show by 2:00 A.M. the game is off" . . . "A chain is only as strong as its weakest link" . . . half court scrimmages save a lot of running . . . "Forrester, you owe me two milkshakes and if you miss this foul, you'll owe Waldbaum one" . . . Miller hits from the corner for two . . . rebound by Wright . . . Greenawalt drives, lays it up and in . . . move it around, move it around . . . three on one, Stauffer back alone . . . "Take a little blow, Al" . . . shot blocked by Kroon . . . balance up . . . "Sure you'll get in Jerry" . . . "They may be faster, but we've got the brains" . . . "Had a little trouble getting started, but held them even during the second half" . . . fine nucleus for next year.

A season marked by coughs and crutches . . . take your time, breathe deeply . . . "Lousy pass!" . . . the slow motion shuttle . . . use your head if you can't catch it . . . "Girls' basketball is becoming a boys' game" . . . no Levi's, **please** . . . how about some layups? . . . hour exams in basketball, too? . . . "You forwards aren't cutting" . . . three blind mice . . . eucalyptus trees out of paper . . . but there should be thirteen balls . . . spectators, few but devoted . . . foul shots **can** win games . . . "When you hear the patter of little feet" . . . one more basket at each end; (ten minutes later): please, just **one** more! . . . practice to Hawaiian music . . . visiting teams like it so much they stay for days . . . without Irene, no team.

**THE SPS CHEMICAL LABORATORY** is one of the major installations of its type in the fastener industry. The laboratory aids in the selection of alloys for use in fasteners. It performs routine

analyses of incoming raw material to determine whether they meet rigid SPS specifications, and maintains controls over plating and finish problems.

## SPS... WORLD LEADERS IN FASTENER RESEARCH

**THE SPS FATIGUE TESTING CENTER** is considered by many authorities to be second only to the one maintained by the Air Force at Wright Field for testing bolts. The data gleaned here help SPS engineers develop stronger, safer threaded fasteners.

**SPS LEADS THE THREADED FASTENER INDUSTRY** in research and development. Out of our fatigue testing, metallurgical and chemical laboratories come concepts that have enabled us to develop stronger bolts. These products are setting standards in the industry.

Hand in hand with research go skilled personnel, modern equipment and production techniques that keep SPS products at uniform high quality. Typical example: we have found that to produce UNBRAKO screws to the precision we require, we must manufacture most of our own tools and dies. Those available to us commercially just aren't accurate enough.

Research at SPS is not limited to development of new products. We are constantly looking for new ways to improve our UNBRAKO, FLEXLOC, HALLOWELL and SEL-LOK lines in packaging, order handling, and delivery, as well as in production methods so as to get the best possible products
